### CRAFT<sup>HD</sup> SOLE

The TPU respectively PU outsole with different use-optimised profile elements and integrated shock absorbing element is especially designed for the CRAFT<sup>HD</sup>. The sole offers high abrasion resistance and improved flexion. Furthermore, the optimised traction and water-displacing profile (wiper effect) ensure a firm grip.

### CUSHIONING MIDSOLE

A soft PU midsole optimally cushions the high impacts when walking and combines perfectly stability and flexibility.

### SHOCK ABSORBER

Directly embedded in the heel area this element absorbs impacts softly and preserves through soft cushioning ligaments and joints from injuries.

### UPPER

The high-quality full leather is characterized by a dense fiber fabric and thus by high stability, resilience and flexibility. In the design, we made sure to use as few seams as possible, among other things to enable easy cleaning in the event of soiling.
