

YA Yellow vest (Thermal Reflective)

This high visibility safety vest is intended to reduce the risk of accidents by enhancing the visibility of the wearer in day-time and night-time conditions.

To ensure maximum visibility, the garment should be worn fully fastened at all times and should be regularly inspected to ensure the garment is kept, clean and undamaged.

The garment should be replaced if it is damaged, worn or the fluorescent fabric is faded.

Features

- Maintains protective performance for at least 25 domestic wash cycles
- Two horizontal reflective bands plus two shoulder bands for improved night-time visibility in most work environments.
- 100% polyester fabric.
- Heat-applied reflective tape for high visibility performance.

Storage and Cares:

Always store and transport the garment in clean and dry conditions and out of direct sunlight. Prolonged exposure to sunlight may

result in fading of the coloured fluorescent fabric or other deterioration of the garment or its components. Please follow the washing care instructions that are shown on the label attached to the garment.
